

Applications

COMMERCIAL ONE

The P Audio Commercial One™ was designed to provide high performance foreground and background music and speech reproduction in a wide variety of retail, office space, restaurant and general commercial and public spaces. The Commercial One™ produces a very wide frequency response and high fidelity to provide both high vocal intelligibility and excellent music reproduction.

The Commercial One™'s small physical dimensions allow the system to be used in a wide variety of installations. The system utilizes a very wide bandwidth transducer that couples both high power handling and excellent linearity. The system is equipped with a multi-tap transformer for use in both distributed systems as well as in low impedance configurations. The transformer offers 4 power taps of 25 watts, 15watts, 12 watts and 6 watts. These tap values allow the Commercial One™ to be used in both medium and small sized venues.

The Commercial One™ is housed in an attractive injection molded enclosure and is equipped with a mounting bracket. The overall depth, including the mounting bracket, is 185mm (7.3 inches). This small profile allows the enclosure to be mounted in small and unobtrusive spaces.

Specifications

GENERAL SPECIFICATION

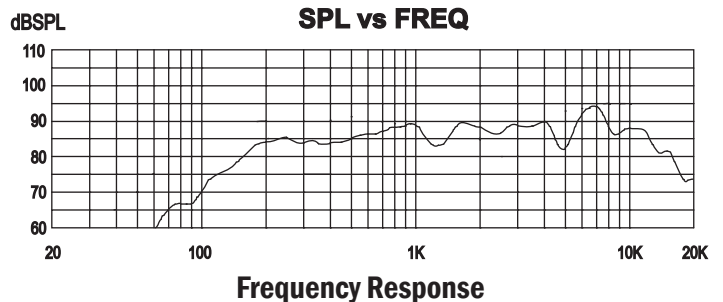

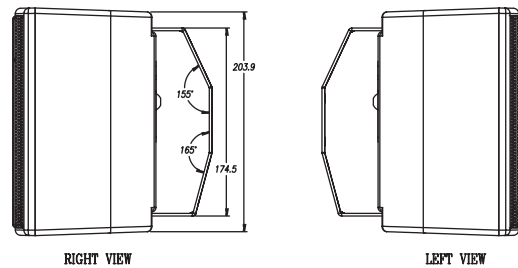

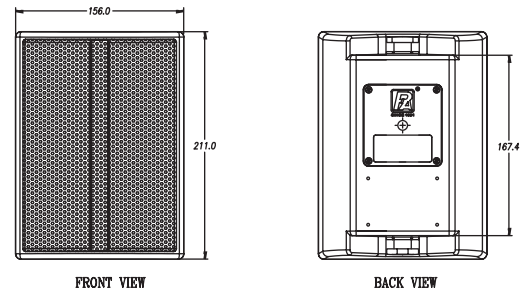

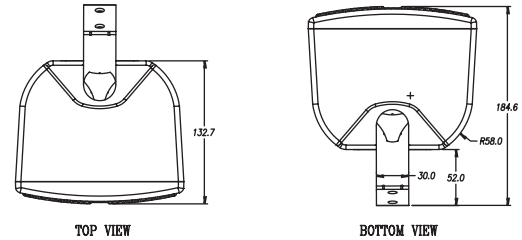

Type	Full Range Passive Sealed Box
Power	25 Watt
Nominal Impedance	8 Ohm
Sensitivity (1W@1M)	89 dB
Frequency Response	200Hz – 15 kHz
Dimension (H x W x D)	211mm x 156mm x 133mm 8.3" x 6.1" x 5.2"
Finish Color	Black or White

TRANSFORMER

Type	Isolate 6 , 12 , 15 , 25 Watt / 100 V
Direct	8 Ohm (Switchable)

PHYSICAL INFORMATION

Component	1 x 5.25" (133mm) Cone Speaker
Construction	Injection Molded High Impact Polycarbonate
Grill	Powder Coated Steel Mesh
Connector	1 x Push Terminal
Rigging / Fitting	Mounting "U" Bracket
Standard Packing	2 Pcs / Pack
Unit Weight	2.2 kg (4.84 lbs)
Shipping Weight	5.0 kg (11 lbs)
Packing Dimension HxWxD (cm)	36.2 x 17.2 x 23.7 14.2" x 6.7" x 9.3" (0.51 cu.ft)
